

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE AMERICAN COOKING RANGE,

WITH ROTARY TOP. 4 SIZES.

The attention of the public is called to the most desirable Cooking Range, ever offered in this or any other market. It has an Elevated Side Oven Range, with a Rotary Top for the boilers. The oven is elevated high, and brought out directly in front, so that it requires no stooping or reaching over a hot fire to place the articles in or take them out.

It is very capacious, and bakes admirably all kinds of meat, bread or pastry, in the most even manner possible, and is well ventilated, and conducts off all the steam of the meats while roasting. The Rotary Top for the Boilers to set in is acknowledged by all that have seen it to be the grand desideratum for a Side Oven Range.

This Range is made in the most thorough and substantial manner, and the plates that are nearest the fire are very heavy and well fastened. The design of this Range is elegant and chaste, with very superior castings, and it is admitted by all that have seen it, to be the most complete cooking apparatus heretofore offered, and every way worthy the name it bears. We warrant it to cook perfectly, or we will pay the cost of the Range, and the expense of setting.

tofore offered, and every way worthy the name it bears. We warrant it to cook perfectly, or we will pay the cost of the Range, and the expense of setting.

THE CLIPPER COOKING STOVE, 1855.

In presenting this Stove to the public, the subscribers feel assured they are offering the most complete Cooking Stove which has ever appeared in this or any other market.

In its arrangements it combines all the latest improvements, such as large flues, to insure a good draft; oval fire box; lever grate, for emptying the coal; a slide or draft in the hearth-plate; a large oven, which bakes very rapidly. The style of this Stove is very chaste, and is admired by all who have seen it.

The castings are unsurpassed in smoothness, very heavy, and no pains are spared in mounting them. The large sales we are making of them, warrant us in the conclusion that this Stove is rightly named

"THE CLIPPER."

PREFACE.

THE RHODE ISLAND REGISTER, in its present form, embracing information respecting the Government, Institutions and Business of the State, was first published in 1853. The present edition is the second number of the series commenced at that time.

Every portion of the work has been thoroughly revised and corrected, and particular pains have been taken to give full and accurate information.

The names of the State Officers, General Assembly, Town Officers for 1855-6, will be found in the work, together with the Constitution of the State and the Articles of Amendment.

The various trades and professions, and the manufacturing and mechanical branches of industry, recorded in the work, will be found valuable to all interested in the growth and prosperity of the State.

A few additions will be found on pages 170 and 171, the information having been received too late for insertion under the proper headings.

Our thanks are due to all who have assisted us in preparing this work, and also to the business people for their liberal patronage.

WALCOTT'S PATENT Graduating Button-Hole Cutters.

We respectfully call your attention to our PATENT GRADUATING BUTTON-HOLE CUTTERS, which we are manufacturing in three sizes, adapted to the use of all who have occasion to cut Button-Holes.

With No. 1, which is the largest size, Button-Holes may be cut from $\frac{1}{2}$ to $1\frac{1}{2}$ inches in length, either with or without an Eyelet Hole at the end.

No. 2, Medium size, cuts from $\frac{1}{4}$ to $1\frac{1}{8}$ of an inch, with or without an Eyelet Hole.

The above sizes, Nos. 1 and 2, are particularly adapted for the use of

TAILORS AND TAILORESSES.

No. 3, Small size, is designed for FAMILY SHIRT and DRESS MAKERS' use, and cuts from $\frac{1}{4}$ to $\frac{3}{4}$ of an inch in length.

In a single pair of these Cutters, are combined the

CHISEL, PUNCH, BENCH & MALLET,

Formerly used for cutting Button-Holes, especially among Tailors.

These Cutters are perfectly simple in their construction and operation. They are used in the same manner as Shears, with the utmost facility, exactness and rapidity. Any required length of Button-Hole may be made with them by sliding the brass bed, which is easily adjusted by the fingers.

By means of them, a very great saving of time and labor may be effected: and among TAILORS, TAILORESSES, SHIRT AND DRESS MAKERS, and in fact, in every family, they may be considered as indispensably necessary as Shears or Scissors.

Our extended facilities for the manufacture of these unequalled cutting instruments, and the consequent increase of our business, have enabled us to reduce them to the following low retail prices:

No. 1—Large size—Improved Tube,	\$1.50
1—Do. Round do.,	1.25
2—Medium size—Improved Tube,	1.17
2—Do. Round do.,	1.00
3—Small or Family size,50

PRESIDENTS AND GOVERNORS

FROM 1647 TO 1856.

A list of the Presidents of the Colony of Rhode Island and Providence Plantations, under the First Patent; and of the Governors under the Second Charter, collected from the State Records.

In the year 1651, William Coddington went to England, and procured from the Council of State, a commission, dated April 3, 1651, constituting him Governor for life, of Rhode Island, Canonicut, &c., with which he returned about the first of August of that year. This produced much uneasiness in the Colony. All the inhabitants on the main refused to submit to Coddington's government. The Colony appointed Roger Williams and John Clarke to proceed to England, to procure the repeal of Coddington's commission. After much opposition, they effected this, in 1652. Mr. Williams returned, and at a general election, held at Warwick, on the 12th of September, 1654, was chosen President of the Colony. Dr. Clarke continued in England as the Colony's agent, till he obtained the Charter granted by Charles II, in 1663.

SOCIETIES

AGRICULTURAL AND HORTICULTURAL

THE "RHODE ISLAND SOCIETY FOR THE ENCOURAGEMENT OF INDUSTRY,"

Was founded in 1820, and has now a fund of over \$19,000 invested in bank stock, &c. Annual exhibitions, with a few exceptions, have been held, of Agricultural, Mechanical, and Manufacturing productions. Within the past few years, a new interest in the Society has been created, and it is now in a very flourishing condition.

During the past year, beside the holding of the Annual Fair, which took place on the 12th of September, the Society had three other exhibitions.

The display of articles exhibited was very attractive and creditable, and, in respect to quality, far excelled any former exhibition,—and the deep and growing interest taken in its proceedings bespeaks the intelligence of the people.

These exhibitions of industry are, in the language of the last annual address, educators of the people, and are worth many fold more than they cost.

THE RHODE ISLAND HORTICULTURAL SOCIETY

Is of more recent origin, but has done efficient service in directing the attention of the public to its valuable and successful efforts in promoting the objects of its formation.

A "FARMERS' CLUB"

Has also been formed, and much good may be expected from it.

There is no agricultural paper published in Rhode Island. The "Journal of Agriculture," edited by William S. King, Esq., who is a resident of this State, publishes the transactions of the above Societies, and is thus regarded as in part a Rhode Island paper, although published in Boston.

DEXTER ASYLUM, PROVIDENCE.

On the range of high land, on the east side of the river, stands the Dexter Asylum, erected for the accommodation of the poor, on land given to the city for that purpose, by the late Ebenezer K. Dexter. The lands about the Asylum and belonging to it, comprise about forty acres, surrounded by a wall ten feet high and three feet thick at the base, which cost about \$22,000. The asylum is of brick, 170 feet long, in three sections, a centre and two wings. The centre is three stories high, with a pediment; the wings are only two stories, with an attic. It is a plain, substantial building.

The general superintendence of this Institution is placed in charge of the Mayor and Aldermen, who act as a Board of Overseers. They hold quarterly meetings at the Asylum on the first Saturday of August, November, February and May. They also appoint one from their body weekly, to act as a Visiting Committee for that period, who reports the next succeeding Monday, to the Board of Aldermen, the state of the establishment during his tour of duty. The charge of the house is in care of a Master and Matron, annually appointed by the Board of Aldermen. Divine service is performed at the chapel every Sabbath.

The medical department is entrusted to a Board of Physicians appointed annually by the Mayor and Aldermen. In all cases of peculiar interest or difficulty, they meet in consultation — keep a record of sickness, a report of which is made to the Board of Overseers at their quarterly meetings; and also, an annual report of the sick during the year, at the meeting of the Board on the first Saturday in August.

ORGANIZATION OF THE UNIVERSITY.

The Laws of the University direct that the Courses of Study shall be so arranged as to accomplish, as far as possible, the following objects :

"1. To enable a student to pursue to the best advantage, any single course which he may choose.

2. To enable a student to pursue for a single term, a single year, or any other portion of time, such studies as he may believe to be for his advantage.

3. To allow students who are candidates for degrees, to pursue the studies necessary for a degree in a longer or a shorter time, as their age, ability, or pecuniary circumstances may render convenient for themselves; the Faculty, however, having the right to direct the studies of such students in such manner as may prevent idleness on the one hand, or superficial haste on the other."

The various classes are organized in conformity with the above enactments. Hence, students may be admitted either as candidates, or not as candidates, for a degree. Those who are not candidates for a degree, are at liberty to pursue the studies of such classes as they may select; unless, however, special permission be granted to the contrary, they are subjected to the same examinations, and are, equally with other students, amenable to all the laws of the University.

The examinations for admission to the University are held on Thursday, Friday and Saturday of Commencement week, and on Thursday, Friday and Saturday of the first week of the second Collegiate term.

Candidates for admission to the course prescribed for the Master of Arts, are examined in

Arithmetic, and Algebra as far as Quadratic Equations,

Ancient and Modern Geography,

English Grammar, and the use of the English language,

Greek Grammar, the Greek Reader, or an equivalent portion of some classical Greek Author, and in writing Greek,

Latin Grammar, Cæsar's Commentaries, the *Æneid* of Virgil, Six Orations of Cicero, Latin Prosody, and in Writing Latin.

For admission to the course for the degree of Bachelor of Arts, students are examined in the studies above mentioned, except that the candidate need be examined only in the preparatory studies of that ancient language which he intends to pursue, if he elect to pursue only one.

To be admitted to the course for the degree of Bachelor of Philosophy, students are examined in all the above studies, with the exception of the Ancient Languages and Ancient Geography.

A student, who is a candidate for a degree, entering upon advanced

standing, must be examined in all the studies which students of the same standing have previously pursued.

Students, who wish to pursue a select course, without entering as candidates for a degree, must be examined in the several branches of a good English education.

No student shall be admitted as a candidate for matriculation, unless he bring suitable testimonials of good moral character; and if he comes from another college or an academy, he must also present a certificate of regular dismissal from, and of good standing in, the institution which he has left.

The earliest age, at which, in general, it will be advantageous for a student to enter the University, is at the completion of the fifteenth year; the President is, however, authorized to matriculate a student at an earlier age, provided sufficient and peculiar reasons exist, and his parent or guardian places him under such moral supervision as is satisfactory to himself.

The form of matriculation is as follows:—A student who wishes to become a member of the University, must first present his testimonials to the President, who, if satisfied with his evidences of good character, will admit him as a candidate to be examined for admission. If his examination be satisfactory, the student shall procure and read a copy of the Laws of the University, after which he shall call again upon the President and sign a declaration of his deliberate intention to obey all the laws of the University, so long as he shall remain a member of it. The President shall then give him a certificate of Matriculation, which shall entitle him to purchase his tickets and proceed with the studies of his class.

As soon as the student is matriculated (if he be a minor), the President shall send by mail to his parent or guardian, a copy of the laws of the University.

LIBRARIES.

The University Library is in Manning Hall, and contains at present twenty-eight thousand volumes. A large proportion of these have been purchased within the last few years, with special reference to the wants of students and gentlemen engaged in literary and scientific pursuits. It is constantly increasing from the proceeds of a permanent fund of \$25,000, established for this purpose in 1839. The Library is open four hours daily, from 9 A. M. till 1 P. M. In addition to the University Library, the Libraries of the Philermenian and the United Brothers Societies, comprise together six thousand volumes, accessible to all the students of the University.

FUNDS.—The only fund of the University in 1827, was \$30,000. It now amounts to more than \$180,000.

EXPENSES.

Term bills must be paid at the commencement of each term.

If a student be matriculated as a candidate for a degree, he is charged a fee of \$5.00.

The following extract is from the Report of the Providence Annual Conference of the Methodist Episcopal Church, held in Newport, April 4th, 1855:—

"From both the Agent and the Trustees of this Institution, we learn that its financial interests are in a prosperous condition. Its debts are in process of liquidation, and the prospect is, that its embarrassments will soon be removed.

The number of students has been quite as large as the present accommodations will furnish with room. The Faculty has been highly successful, and the religious condition of the school has been truly gratifying to its friends.

The want of additional room, and of a better and more commodious Academy building, is felt to be very pressing. The erection of new buildings is urgently demanded by the exigencies of the case. On this account, your Committee would urge upon the attention and earnest sympathy of the Conference, the proposition of the Trustees, contained in the following extract of the report of a Committee of that Board, dated 'Newport, April 9, 1853: that Rev. Wm. Livesey be appointed an agent to solicit contributions and procure subscriptions for the erection of new buildings.' "

WESTERLY HIGH SCHOOL,

W E S T E R L Y .

There are four terms in the year.

The school was established in 1847, and the average number of scholars is 50.

The present system of schools was established in 1847, under the guidance and counsel of Rev. Thomas H. Vail. We have the "Graduation System." There are two primary schools, situated at the extremes of the village. The High School and intermediate departments are in the same building, in the central part of the village. In the entire district, as now organized, there are 240 scholars. The primary schools have, at present, 50 each, the intermediate 60, and the High School 80. The languages (Latin and Greek) are taught in the High School. The schools are at present in a flourishing condition, and there is a commendable interest on the part of the citizens.

The above embraces only the village of Westerly. The entire list of Teachers in this district is as follows:

High School.—A. J. Foster, *Principal*; Jane E. C. Carr, *Assistant*.
Intermediate.—Miss Maine. *1st Primary.*—Miss Ruth Chapin. *2d Primary.*—Miss Bridget Browning.

RELIGIOUS DENOMINATIONS IN RHODE ISLAND.

The following statement respecting the various religious denominations in the State, is regarded as quite full and accurate. The list comprises a variety of sects, embracing nearly every denomination, and showing that the "religious toleration" established by the first settlers of the State is fully enjoyed and maintained by their descendants. Besides the list of churches and clergymen, we give such facts respecting each sect as have come to our knowledge.

BAPTISTS.

This denomination has 50 churches, 32 settled pastors, 7,482 members, and in all about 60 clergymen in the State. The early settlers of the State were all Puritans of the highest form. Many of these soon after became Baptists, and organized first a church in Providence, March, 1693, (*the oldest Baptist church in America*) and the second in Newport, 1644. There was no other regular church of any order in the State until that of the Society of Friends, about 1670. The regular Baptists have two associations. The "Warren" was established Sept. 8th, 1767. The "Providence" was instituted in 1844. The Rhode Island Baptist State Convention was organized August 4th, 1825; its last annual meeting was held in Wickford, April, 1855.

WARREN BAPTIST ASSOCIATION.

This body, which was formed in 1767, held its *eighty-ninth* annual meeting with the Central Baptist Church, in Newport, R. I. From the Report, we find that the body has 37 churches, 26 pastors, and 5,893 members. The next annual meeting will be held with the Pine Street Baptist Church in Providence. —Rev. Samuel Adlam, *Moderator*, Rev. Myron M. Dean, *Clerk*, and H. H. Brown, *Assistant Clerk*.

PROVIDENCE BAPTIST ASSOCIATION.

This body held its *twelfth anniversary* with the Fourth Baptist Church in Providence, on Wednesday and Thursday, Sept. 19th and 20th, 1855. From the Report, we find the body numbers 13 churches, 6 pastors and 1,589 members. The next annual meeting will take place on the third Wednesday of September, 1856. Rev. George R. Darrow, *Moderator*, Rev. Warren Randolph, *Clerk*, and Rev. George B. Peck, *Assistant Clerk and Treasurer*.

RHODE ISLAND BAPTIST SABBATH SCHOOL ASSOCIATION.

S. S. Greene, of Providence, *President*; A. M. Gammell, of Warren, *Vice President*; Reuben A. Guild, of Providence, *Secretary*; A. O. Hill, of Providence, *Treasurer*; S. R. Weeden, James Boyce, A. W. Godding, of Providence, Ira Stillman, Newport, S. D. Reynolds, Wickford, J. R. Vincent, Westerly, W. Cook, Pawtucket, *Directors*.

CHRISTIANS.

The churches in the easterly part of the State belong to the Rhode Island and Massachusetts Christian Conference, and those in the western to the Connecticut Conference. These bodies hold each an annual session, in the month of September. The Christians publish no paper in this State, but unite with their brethren of the same denomination in sustaining a New England organ, the "Herald of Gospel Liberty," published weekly, at Newburyport, Mass., which is a continuation of the first religious periodical published in the Union.

The number of communicants or church members in the State is probably fifteen hundred.

CONGREGATIONALISTS.

This denomination has 22 churches, 19 pastors and 2,717 members in the State. Its last annual meeting was held at Pawtucket, Mass., June 12th, 1855. Its next annual meeting will be held in the Central Church, Providence.

Joel Mann, *Moderator*; Willard Jones, *Scribe*; C. C. Beamen, *Assistant Scribe*. There is also a *Rhode Island Auxiliary Foreign Missionary Society*. Rev. C. Blodgett, *Secretary and Treasurer*.

Also a *Rhode Island Home Missionary Society*. Rev. T. Shepard, *President*; Joseph Wood, Royal Chapin, A. D. Lockwood, Rowland Hazard, and John Kingsbury, *Vice Presidents*; Rev. C. Blodgett, *Secretary*; Rev. J. Leavitt, *Assistant Secretary*; Gilbert Richmond, *Treasurer*; S. S. Wardwell, *Auditor*.

MEETING OF FRIENDS.

By the statistics of the census of 1850 it appears that the whole number of churches of the Society of Friends in the United States, is 715, to which are attached 283,023 members.

It appears, upon examination of the records of the New England Yearly Meeting, that no statement of the precise time at which it was established has been preserved; neither has any authentic document come under observation, from which that time might be accurately ascertained.

The earliest intimation of its existence that has been noticed, is in the journal of John Burnyeat, a Minister of the Gospel, who travelled extensively in this country about the time at which this meeting was instituted. In that work, there is an account of his attendance at a "Yearly Meeting held on Rhode Island in the fourth month, 1671," in which he mentions it as "A general Meeting, once a year, for all friends in New England."

In 1672, George Fox, that devoted promulgator of the doctrines of the Society of Friends, attended the annual assembly of this meeting, and inserted the following interesting description in his "Journal":

We "arrived in Rhode Island the thirtieth of the third" [corresponding to the modern *5th*] "month; where we were gladly received by Friends. We went to Nicholas Easton's, who was governor of the island, where we lay, being weary with travelling. On first day following, we had a large meeting, to which the deputy-governor and several of the justices came and were mightily affected with the truth. The week following, the YEARLY MEETING OF FRIENDS FOR NEW ENGLAND and other colonies adjacent, was held on this island; to which, besides many Friends who lived in those parts, came John Stubbs, from Barbadoes, and James Lancaster and John Cartwright, from another way. This meeting lasted six days. The first four were spent in general meetings for worship, to which abundance of other people came. For, having no priests on the island, and no restrictions to any particular way of worship, and the governor and deputy-governor with several justices of the peace daily frequenting meetings, it so encouraged people that they flocked in from all parts of the island. Very good service we had amongst them, and truth had good reception. I have rarely observed people in the state wherein they stood, to hear with more attention, diligence and affection, than generally they did, during the four days; which was also taken notice of by other Friends.

"These public meetings over, the men's meeting began, which was large, precious and weighty. The day following was the women's meeting, which was also large and very solemn. These two meetings being for ordering the affairs of the church, many weighty things were opened and communicated to them by way of advice, information and instruction, in the services relating thereunto; that all might be kept clean, sweet and savory amongst them.

"In these, several men's and women's meetings for other parts were agreed and settled, to take care of the poor, and other affairs of the church, and to see that all who profess the truth, walk according to the glorious gospel of God. When this great general meeting was ended, it was somewhat hard for Friends to part; for the glorious power of the Lord, which was over all, and his blessed truth and life flowing amongst them, had so knit and united them together, that they spent two days in taking leave one of another and of the friends of the island; and then, being mightily filled with the presence and power of the Lord, they went away, with joyful hearts, to their several habitations in the several colonies where they lived."—*G. Fox's Journal.*

Besides this meeting, it appears that several other "Yearly Meetings" were

established about the same time, and very probably were the meetings "for other parts," which are referred to in the preceding extract. They are referred to in the following Minutes, which are interesting, not only as being the oldest existing records of the Yearly Meeting, but also, as being *all* the minutes that were made during the session of the meeting, for 1683.

"It is Agreed on and settled at A generall yearley meeting at y^e house of W^m. Coddington in Rhoad Island, y^e 11 4-m [6th] 1683.—The Yearley Generall meeting of Friends worshipping of God,—Theare assembly at Rhoad Island Begins y^e second sixth daye of y^e 4th [6th month in Every year, till friends see cause in y^e wisdom & counsell of god to alter it.

"At Duxbury, y^e generall yearley meeting Begins on y^e last sixth daye in Every 7th M: & since, it is altered to y^e first 6th daye in Every 8th month.

"At Piscataua y^e generall meeting Begins y^e second first-daye after duxbury meeting.

"At Salim y^e generall meeting Begins y^e next first-daye After duxbury meeting.

"At dartmo^a y^e generall yearley meeting is to Begin y^e 4th first-days After Duxbury meeting."

Such are the Minutes of 1683. It appears that the following Minute, although placed with those of the year above-mentioned, was recorded in 1691.

"At Warwick A yearley meeting is appoynted y^e second first-days in every mo."

The regular records of the meeting for that year, commence as follows:

"At A Generall yearley Meeting at the house of Walter Newberrys at Newporte in Rhoad Island y^e 15 daye of y^e 4 mo 1691.

The seuerall meetings were called ouer, vidzt,

Rhoad Island,
Sandwich,
Sittuate,

Salim,
Piscattua,
Oyster Bay,

no Buisiness from y^e presented."

Following this is a minute relating to an epistle received from the Yearly Meeting of London, "and Also An acc^t of ye Removeall of our Antient and Deare friend And Elder Brother George fox oute of the Bodey." With one additional minute, the records of this meeting conclude.

The meeting at "Oyster Bay," referred to in the foregoing extract, was held upon Long Island, now within the limits of New York Yearly Meeting.

THE DIVISION OF THE FRIENDS.

The Yearly Meeting of Friends for New England, appears to have been a united body, gradually increasing in the number of its members and subordinate meetings, and spreading over a larger extent of territory, from the time of its original establishment, to the year 1845; when it was composed of eight Quarterly meetings, and comprised within its limits thirty-one Monthly meetings, seventy Preparative meetings, and ninety-nine meetings for worship.—But causes which had for some years been operating, resulted in a division of this body into two separate organizations during its session in 1845.

A prominent minister belonging to the Society in England, who was also a voluminous writer, having extensively promulgated a new system of Doctrine, opposed to the doctrines of the Primitive Friends, and the long established faith and principles of the Society, as set forth in their standard works and authorized publications; his modified views of Quakerism, appear to have been received and adopted—upon his travelling through New England as a minister in 1838—by a large majority of the members of this Yearly Meeting; which also, as a body, became committed to his new Doctrines, so far as his partisan could do it, by their officially acknowledging full unity with his ministry, &c.

A minority of the members steadily opposed the introduction and promulgation of these new doctrines, maintaining that they were *unsound*, endeavoring to put their fellow members upon their guard against receiving and adopt

ing them, and also to prevent the yearly meeting from identifying itself with them and their author, by refusing to grant him a Certificate of Unity, &c. They also endeavored in other respects and on a variety of occasions to withstand the innovations, and violations of the Discipline and order of the Society, which followed the introduction of new principles.

But being overpowered by numbers, the minority finally withdrew from the fellowship and communion of the majority, "in order," as they assert, in an official document published at the time of the separation, in 1845, that they might maintain their allegiance to the ancient Faith and Principles of the Society, and also *sustain* the Yearly Meeting, upon the ground of its original establishment, with the Doctrines, the Testimonies and the Discipline of the Society unchanged and unimpaired.

And consequently, since the year 1845, two bodies have annually assembled at the same time in Newport, each claiming to be the Yearly Meeting of Friends for New England. The larger body assembles in the old meeting-house on Marlborough and Farwell streets. The smaller body in a new meeting-house which they have erected since the separation, on Mann Avenue. Samuel Boyd Tobey, of Providence, R. I., is the present clerk of the larger body; and Peleg Mitchell, of Nantucket, Mass., is now the clerk of the smaller body.

These two Yearly Meetings respectively commence with meetings of Ministers and Elders, on seventh day succeeding the second sixth day in the sixth month, at 9 o'clock, A. M. Meetings for public worship are held in both houses in Newport, and also by the larger body, at Portsmouth, on the following day (first day) at 10 o'clock, A. M., and 4 P. M., at each place. The meetings for discipline commence on second day at the ninth hour in the morning.

At the time of the separation, only four of the eight Quarterly Meetings previously composing the Yearly Meeting were sustained in unity with and in subordination to the smaller body, viz: Rhode Island, Salem, Sandwich and Dover Quarterly Meetings.

Rhode Island Quarterly Meeting, is composed of Rhode Island, Swansey, South Kingstown and Providence *Monthly* Meetings.

Salem and Dover Quarterly Meetings have been united since the separation, in the Yearly Meeting; they now constitute one Quarterly Meeting, called Salem and Dover Quarterly, which is composed of two monthly meetings, viz: Salem and North Berwick.

Sandwich Quarterly Meeting is now composed of three monthly meetings, viz: Nantucket, Dartmouth and New Bedford.

Preparative meetings, and meetings for worship have been sustained in subordination to each of these monthly meetings, and are regularly held within the limits of them all, on the first and other days of the week, viz: at Newport, on the first and fifth days in every week (except when the Quarterly Meeting occurs in the 2d, 6th and 11th months when the mid-week meeting in Newport is omitted,) at Fall River, North Providence, Hopkinton, South Kingstown and Westerly, in Rhode Island Quarterly Meeting: at Salem, Lynn, and North Berwick, in Salem and Dover Quarter; and at Nantucket, North and South Dartmouth, New Bedford and Little Compton, within the limits of Sandwich Quarterly Meeting.

In Newport, and most other places, these meetings commence at the eleventh hour in the morning, both on first and week days. But at Fall River, in Nantucket, and in New Bedford, where meetings are held in the afternoon of the first day of the week, they commence at 10, or half-past 10 o'clock in the morning.

RHODE ISLAND QUARTERLY MEETING.

Rhode Island Quarterly Meeting of the larger body was established by the Yearly Meeting in 1690, and at that time comprised the Monthly Meetings of Rhode Island, Dartmouth, and Narragansett. FRIENDS' YEARLY MEETING BOARDING SCHOOL.

Established in 1819.

This institution is under the direction of a committee of the New England Yearly Meeting, who appoint Superintendents and teachers. The number of teachers varies with the number of scholars, who are taught in the various branches of an English education, including the Mathematics, and the Latin, Greek, German, and French languages, and in Drawing and Painting. Lectures are regularly delivered in Natural Philosophy and Chemistry, illustrated by experiments, and occasionally upon other subjects embraced in the course of study in the school. Through the liberality of a number of its friends, the institution has recently received a valuable Mineralogical Cabinet.

The whole number of teachers is 8; of scholars about 150.

ROMAN CATHOLICS.

This denomination now have fifteen churches and sixteen priests in the State, governed by the Rt. Rev. Bernard O'Rielly, bishop of the diocese ; of this number four churches and eight priests are in the city of Providence. There is also a Convent ; an Orphan Asylum ; a Female Asylum (affording the comfort of a home to at least 50 destitute children) ; a parochial school attached to each church, under the superintendence of the Sisters of Mercy of the Convent. The Catholic population of Providence is estimated at 15,000. The number of pupils attending school in Providence is about 1200. The Bishop resides in Pond street, corner of Fenner street, Providence.

UNITARIANS.

The "First Congregational Church," in Providence, founded in 1788, has been Unitarian for more than half a century, and is now one of the largest in the city. The present pastor is the Rev. E. B. Hall, D. D., installed in 1852. A second society was formed from this in 1828, called the "Westminster Congregational Church," also a large and strong society, whose pastor is now the Rev. F. H. Hedge, D. D. Individual members of these two societies, in 1842,

established a "ministry at large," and erected for it a Free Chapel, on Benefit street, where a church was organized, and regular Sabbath services have been held there from that time without interruption. The minister, Rev. E. M. Stone, devotes himself entirely to the temporal relief and spiritual instruction of the poorer classes, while others in better circumstances make a part of his congregation. He has a band of teachers and helpers, who sustain a Sunday school, sewing school, and various forms of charity, without regard to sect.

Beside these three societies, there are two others, a Mariners and a Christian, who do not bear the name of Unitarian, but hold a similar faith with the same form. Believers of the same stamp are found in nearly every part of the State; and in Newport, there is a regular church, under the Rev. C. T. Brooks, worshipping in the very house formerly occupied by Dr. Hopkins, the father of the Hopkintonian theology; and in communion with this, there is a society on the Island of the Christian name.

UNIVERSALISTS.

This denomination has, in the State, 10 societies, 5 meeting-houses, and 4 preachers. The Universalist State Convention meets annually, on the 3d Wednesday and Thursday in May. Rev. J. Boyden, Jr., of Woonsocket, *Clerk*. They have also a Rhode Island Tract Society, which meets with the Convention.

VIEW OF THE STATE HOUSE AT NEWPORT.

The State House at Newport is a fine brick building, located at the head of Washington square, two stories high above a basement story of stone. It was erected in 1741, and much of its interest is to be attributed to its antiquity. Its rooms are appropriated to the use of the Legislature, the different Courts of the County, State, and United States. The hall for the Representatives is used as a Court room, and the Senate Chamber is adorned by a fine full-length portrait of Washington, painted by Stuart for the town.

RHODE ISLAND STATE PRISON.

PROVIDENCE.

The present Penitentiary buildings, situate on the north side of the cove immediately opposite the Railroad Depot at Providence, were erected in 1838, previous to which time the County Jails were the places of confinement for all classes of prisoners. Subsequently the County Jail was connected with and placed under the charge of the same officers as the State Prison.

When first instituted the Prison was upon the plan of the Pennsylvania Prison, and consisted of 38 large cells, intended for solitary confinement. Under this plan it was found to be a continually increasing source of expense to the State, while the health of the prisoners was sensibly affected by their solitary confinement. In 1846 there were 20 convicts, and the expenses exceeded the income more than \$2,500. The County Jail too was found to be much too small for the accommodation of the increased number of Jail prisoners. Under these circumstances the Legislature of 1850 made an appropriation for the purpose of erecting a new wing to contain cells and workshops for the better employment of convicts. These were immediately commenced and finished in the summer of 1851. The new wing consists of 88 separate cells, built upon the most approved plan for ventilation, &c. The workshops were large, commodious, and well adapted for prison discipline while at labor. Immediately upon its completion the State prisoners were removed to the new wing and the old Prison was taken for a Jail. Under this arrangement the expenses were materially reduced, but still exceeded the income, as in 1853 we find there were 46 convicts who were most of the time employed in the workshops, and the expenses exceeded the income about \$1,600.

On the first of August, 1854, the present Warden, Samuel L. Blaisdell, took charge of the Prison. Mr. Blaisdell had previously been Deputy Warden of the New Hampshire Prison, where his skill, energy and urbanity had won the highest praise from both the Warden and Board of Inspectors. Under his direction important alterations have been made in the general discipline of the men and the modes of employment, and under his watchful care the Institution was transformed from a burden upon the treasury to a source of income. For the first seven months of 1854, (from January 1st to August 1st,) the expenses exceeded the income \$645.18, while for the last five months, from August 1st to December 31st, the income exceeded the expenses \$125.65, and for the present year (1855), will probably exceed the expenses \$1000.

There are now in the State Prison (Dec. 1st, 1855) 69 males and 2 females; four of these are on sentence for life, and the rest on terms varying from one to twenty years. The males are employed by Messrs. Field & Church at cabinet making, and many of the most beautiful articles which adorn the parlors of the city come from these workshops.

There is a large and valuable Library connected with the Institution, principally selected by Rev. Dr. Wayland for the use of the convicts, and they are allowed light a part of the evening for the purpose of reading.

On the Sabbath there are Sabbath Schools and preaching attended by the Rev. Dr. Woods and Rev. Mr. Douglas, City Missionary, assisted by the Warden and officers of the Prison, and a part of the day is occupied in teaching the ignorant to read and write.

Thus from the moment the convict enters the walls of this prison every influence to which he is subjected is such as tends strongly towards a future life of usefulness and uprightness.

In his laboring hours he is taught a pleasant and useful trade with which to earn his future livelihood, and an examination of the warerooms of Messrs. Field & Church will afford ample proof of the skill which many of them acquire. Their leisure hours are employed in useful reading and study, and the Sabbath is appropriated to services and moral instruction, and during the whole time they are under the charge of a Warden, who, to strict discipline and unswerving firmness in his government, adds a kind and gentle manner, wholesome advice, and a strong interest in the welfare of his prisoners.

In 1854 the Jail room had become much too small for the accommodation of the Jail prisoners, and at the June session in 1855 the General Assembly made an appropriation of \$25,000 for the erection of a Jail wing, to correspond with the one previously erected for the State Prison and for workshops, for the better employment of the Jail prisoners. These are now nearly completed, and it is confidently believed that the County Jail will be made to very nearly pay its expenses.

The number of Jail prisoners is constantly increasing. In 1852 the average number in Jail was 45; in 1853 the average number was 76; in 1854 it was 100, and in 1855 will probably be 120.

There have been committed to the State Prison since its first institution in 1838, 252 convicts, (to Dec. 1st, 1855;) of this number about 100 were from Rhode Island, 50 from Ireland, 38 from Massachusetts, 18 from England, 17 from New York, and the rest from various States in the Union and Europe, no one State or country furnishing more than three.

The greatest number committed in one year was in 1850, viz, 31.

The names of the officers of the Prison and Jail, with the salary received by each, are as follows:

Samuel L. Blaisdell, <i>Warden</i> ,.....	Salary \$1050
Enoch B. Nelson, <i>Deputy Warden</i> ,.....	500

BUTLER HOSPITAL.

While the many Educational facilities which in part owe their expansion, if not their existence, to the philanthropy of its citizens, have been thriving under judicious management and generous patronage, the ears of her citizens have not been stopped to the appeals of humanity, nor have their hearts refused to respond when viewing the spectacle which our weak human nature presents when bereft of reason.

Accordingly in a codicil to the will of that patron of learning and friend of humanity (the late Nicholas Brown of Providence,) bearing date the 3d March, 1841, he generously bequeathed the sum of \$30,000 towards the endowment of an Insane or Lunatic Asylum.

Cyrus Butler, Esq., perceiving the sum insufficient for the accomplishment of the object, contributed the additional sum of \$40,000, wisely coupled with the conditions that \$40,000 more should be raised from other sources and that

of the aggregate amount, \$50,000 should be kept as a reserved fund, the interest of which only should be used in defraying the expenses of the Institution. An appeal was then made to the public, and heartily and nobly did they respond to it by a subscription of over \$57,000, which together with interest which subsequently accrued, swelled the amount of funds to nearly \$138,000. And again in 1850 the sum of \$20,000 was contributed to the funds of the hospital by Alexander Duncan of Providence.

The grounds belonging to the Hospital are ample, consisting of about 60 acres of tillage, 155 of native woodland, embracing a great variety of soil and surface. The building stands in a clearing on the western bank of the Seekonk River, which here widens into an expanse of a mile in breadth, and permits extensive view of the country. In every other direction the eye rests on dense groves. The grounds afford ample space for healthful and necessary recreation, and the scenery, by its variety and beauty, is well fitted for the restoration of the unfortunate. The soil for some distance around the building is sandy and affords clean, dry walks at every season of the year.

Annual meeting of the Corporation, fourth Wednesday in January.

Every person who has already contributed or shall hereafter contribute the sum of \$100 to the funds of the Corporation, is thereby constituted a member of the same.

On the 31st of December, 1853, there were in the house one hundred and and thirty-six patients—sixty-three males, and seventy-three females. During the year ending 31st of December, 1854, there were admitted eighty—thirty-one males, and forty-nine females, making two hundred and sixteen under care in the course of the year. There have been discharged eighty-five—forty males, and forty-five females—leaving, on the 31st of December, 1854, one hundred and thirty-one—fifty-four males, and seventy-seven females.

Of the persons admitted, twenty-two were from other States. Of the remaining fifty-eight, twenty-one were supported by cities or towns; six, partly by the bounty of the State dispensed by the Governor; and thirty-one entirely by private means.

Of those discharged, forty had recovered; twenty were improved; six were unimproved; and nineteen died.

CONSTITUTION

OF THE STATE OF RHODE ISLAND AND PROVIDENCE
PLANTATIONS.

ARTICLE I.

DECLARATION OF CERTAIN CONSTITUTIONAL RIGHTS AND PRINCIPLES.

In order effectually to secure the religious and political freedom established by our venerated ancestors, and to preserve the same for our posterity, we do declare that the essential and unquestionable rights and principles hereinafter mentioned, shall be established, maintained and preserved, and shall be of paramount obligation in all legislative, judicial and executive proceedings.

SECTION 1. In the words of the Father of his Country, we declare, that "the basis of our political systems is the right of the people to make and alter their constitutions of government; but that the constitution which at any time exists, till changed by an explicit and authentic act of the whole people, is sacredly obligatory upon all."

SEC. 2. All free governments are instituted for the protection, safety, and happiness of the people. All laws, therefore, should be made for the good of the whole; and the burdens of the State ought to be fairly distributed among its citizens.

SEC. 3. Whereas, Almighty God hath created the mind free; and all attempts to influence it by temporal punishments or burdens, or by civil incapacitations, tend to beget habits of hypocrisy and meanness; and, whereas, a principal object of our venerated ancestors, in their migration to this country and their settlement of this State, was, as they expressed it, to hold forth a lively experiment that a flourishing civil State may stand and be best maintained with full liberty in religious concerns; we therefore declare, that no man shall be compelled to frequent or to support any religious worship, place, or ministry whatever, except in fulfilment of his own voluntary contract: nor enforced, restrained, molested, or burdened in his body or goods; nor disqualified from holding any office, nor otherwise suffer on account of his religious belief; and that every man shall be free to worship God according to the dictates of his own conscience, and to profess, and by argument to maintain, his opinion in matters of religion; and that the same shall in no wise diminish, enlarge, or affect his civil capacity.

SEC. 4. Slavery shall not be permitted in this State.

SEC. 5. Every person within this State ought to find a certain remedy, by having recourse to the laws, for all injuries or wrongs which he may receive in his person, property, or character. He ought to obtain right and justice freely, and without purchase; completely and without denial; promptly, and without delay; conformably to the laws.

SEC. 6. The right of the people to be secure in their persons, papers, and possessions, against unreasonable searches and seizures, shall not be violated; and no warrant shall issue but on complaint in writing, upon probable cause, supported by oath or affirmation, and describing as nearly as may be, the place to be searched, and the persons or things to be seized.

SEC. 7. No person shall be held to answer for a capital or other infamous crime, unless on presentment or indictment by a grand jury, except in cases of impeachment, or of such offences as are cognizable by a

justice of the peace; or in cases arising in the land and naval force, or the militia, when in actual service in time of war or public danger. No person shall, after an acquittal, be tried for the same offence.

SEC. 8. Excessive bail shall not be required, nor excessive fines imposed, nor cruel punishments inflicted; and all punishments ought to be proportioned to the offence.

SEC. 9. All persons imprisoned ought to be bailed by sufficient surety, unless for offences punishable by death or by imprisonment for life, when the proof of guilt is evident, or the presumption great. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion, the public safety shall require it; nor ever without the authority of the General Assembly.

SEC. 10. In all criminal prosecutions, the accused shall enjoy the right of a speedy and public trial, by an impartial jury; to be informed of the nature and cause of the accusation, to be confronted with the witnesses against him, to have compulsory process for obtaining them in his favor, to have the assistance of counsel in his defence, and shall be at liberty to speak for himself; nor shall he be deprived of life, liberty, or property, unless by the judgment of his peers, or the laws of the land.

SEC. 11. The person of a debtor, when there is not strong presumption of fraud, ought not to be continued in prison, after he shall have delivered up his property for the benefit of his creditors, in such manner as shall be prescribed by law.

SEC. 12. No ex post facto law, or law impairing the obligation of contracts, shall be passed.

SEC. 13. No man, in a court of common law, shall be compelled to give evidence criminating himself.

SEC. 14. Every man being presumed innocent, until he is pronounced guilty by the law, no act of severity which is not necessary to secure an accused person, shall be permitted.

SEC. 15. The right of trial by jury shall remain inviolate.

SEC. 16. Private property shall not be taken for public uses, without just compensation.

SEC. 17. The people shall continue to enjoy and freely exercise, all the rights of fishery, and the privileges of the shore, to which they have been heretofore entitled, under the charter and usages of this State. But no new right is intended to be granted, nor any existing right impaired by this declaration.

SEC. 18. The military shall be held in strict subordination to the civil authority. And the law martial shall be used and exercised in such cases only as occasion shall necessarily require.

SEC. 19. No soldier shall be quartered in any house in time of peace, without the consent of the owner; nor in time of war, but in manner to be prescribed by law.

SEC. 20. The liberty of the press being essential to the security of freedom in a State, any person may publish his sentiments on any subject, being responsible for the abuse of that liberty; and in all trials for libel, both civil and criminal, the truth, unless published from malicious motives, shall be sufficient defence to the person charged.

SEC. 21. The citizens have a right, in a peaceable manner, to assemble for their common good, and to apply to those invested with the powers of government, for redress of grievances, or for other purposes, by petition, address or remonstrance.

SEC. 22. The right of the people to keep and bear arms shall not be infringed.

SEC. 23. The enumeration of the foregoing rights shall not be construed to impair or deny others retained by the people.

SECTION 1. The judicial power of this State shall be vested in one supreme court, and in such inferior courts as the General Assembly may from time to time ordain and establish.

SEC. 2. The several courts shall have such jurisdiction as may from time to time be prescribed by law. Chancery powers may be conferred on the supreme court, but on no other court to any greater extent than is now provided by law.

SEC. 3. The judges of the supreme court shall, in all trials, instruct the jury in the law. They shall also give their written opinion upon any question of law, whenever requested by the governor, or by either house of the General Assembly.

SEC. 4. The judges of the supreme court shall be elected by the two houses in grand committee. Each judge shall hold his office until his place be declared vacant by a resolution of the General Assembly to that effect; which resolution shall be voted for by a majority of all the members elected to the house in which it may originate, and be concurred in by the same majority of the other house. Such resolution shall not be entertained at any other than the annual session for the election of public officers; and in default of the passage thereof at said session, the judge shall hold his place as is herein provided. But a judge of court shall be removed from any office, if, upon impeachment, he shall be found guilty of any official misdemeanor.

SEC. 5. In case of vacancy by death, resignation, removal from the State or from office, refusal or inability to serve, of any judge of the supreme court, the office may be filled by the grand committee, until the next annual election, and the judge then elected shall hold his office as before provided. In cases of impeachment, or temporary absence or inability, the governor may appoint a person to discharge the duties of the office during the vacancy caused thereby.

SEC. 6. The judges of the supreme court shall receive a compensation for their services, which shall not be diminished during their continuance in office.

SEC. 7. The towns of, New Shoreham and Jamestown may continue to elect their wardens as heretofore. The other towns and the city of Providence may elect such numbers of justices of the peace, resident therein, as they may deem proper. The jurisdiction of said justices and wardens shall be regulated by law. The justices shall be commissioned by the governor.

ARTICLE XI.

OF IMPEACHMENTS.

SECTION 1. The House of Representatives shall have the sole power of impeachment. A vote of two-thirds of all the members elected shall be required for an impeachment of the governor. Any officer impeached, shall thereby be suspended from office until judgment in the case shall have been pronounced.

SEC. 2. All impeachments shall be tried by the Senate; and, when sitting for that purpose, they shall be under oath or affirmation. No

person shall be convicted except by vote of two-thirds of the members elected. When the governor is impeached, the chief or presiding justice of the supreme court for the time being, shall preside, with a casting vote in all preliminary questions.

SEC. 3. The governor and all other executive and judicial officers, shall be liable to impeachment; but judgment in such cases shall not extend further than to removal from office. The person convicted, shall, nevertheless, be liable to indictment, trial, and punishment according to law.

ARTICLE XII.

OF EDUCATION.

SECTION 1. The diffusion of knowledge, as well as of virtue among the people, being essential to the preservation of their rights and liberties, it shall be the duty of the General Assembly to promote public schools, and to adopt all means which they may deem necessary and proper to secure to the people the advantage and opportunities of education.

SEC. 2. The money which now is, or which may hereafter be appropriated by law for the establishment of a permanent fund for the support of public schools, shall be securely invested, and remain a perpetual fund for that purpose.

SEC. 3. All donations for the support of public schools, or for other purposes of education, which may be received by the General Assembly, shall be applied according to the terms prescribed by the donors.

SEC. 4. The General Assembly shall make all necessary provisions by law for carrying this article into effect. They shall not divert said money or fund from the aforesaid uses, nor borrow, appropriate, or use the same, or any part thereof, for any other purpose, under any pretence whatsoever.

ARTICLE XIII.

ON AMENDMENTS.

The General Assembly may propose amendments to this constitution by the votes of a majority of all the members elected to each house. Such propositions for amendment shall be published in the newspapers, and printed copies of them shall be sent by the secretary of state, with the names of all the members who shall have voted thereon, with the yeas and nays, to all the town and city clerks in the State. The said propositions shall be, by said clerks, inserted in the warrants or notices by them issued, for warning the next annual town and ward meetings in April; and the clerks shall read said propositions to the electors, when thus assembled, with the names of all the representatives and senators who shall have voted thereon, with the yeas and nays, before the election of senators and representatives shall be had. If a majority of all the members elected to each house, at said annual meeting, shall approve any proposition thus made, the same shall be published and submitted to the electors in the mode provided in the act of approval; and if then approved by three-fifths of the electors of the State present, and voting thereon in town and ward meetings, it shall become a part of the constitution of the State.

ARTICLE XIV.

ON THE ADOPTION OF THIS CONSTITUTION.

SECTION 1. This constitution, if adopted, shall go into operation on the first Tuesday of May, in the year one thousand eight hundred and forty-three. The first election of governor, lieutenant-governor, secre-

tary of state, attorney-general and general treasurer, and of senators and representatives under said constitution, shall be had on the first Wednesday of April next preceding, by the electors qualified under said constitution. And the town and ward meetings therefor shall be warned and conducted as is now provided by law. All civil and military officers now elected, or who shall be hereafter elected by the General Assembly, or other competent authority, before the said first Wednesday of April, shall hold their offices and may exercise their powers until the said first Tuesday of May, or until their successors shall be qualified to act. All statutes, public and private, not repugnant to this constitution, shall continue in force until they expire by their own limitation, or are repealed by the General Assembly. All charters, contracts, judgments, actions and rights of action, shall be as valid as if this constitution had not been made. The present government shall exercise all the powers with which it is now clothed, until the said first Tuesday of May, one thousand eight hundred and forty-three, and until the government under this constitution is duly organized.

SEC. 2. All debts contracted and engagements entered into before the adoption of this constitution, shall be as valid against the State, as if this constitution had not been adopted.

SEC. 3. The supreme court, established by this constitution, shall have the same jurisdiction as the supreme judicial court at present established, and shall have jurisdiction of all causes which may be appealed to, or pending in the same; and shall be held at the same times and places, and in each county, as the present supreme judicial court, until otherwise prescribed by the General Assembly.

SEC. 4. The towns of New Shoreham and Jamestown shall continue to enjoy the exemptions from military duty which they now enjoy, until otherwise prescribed by law.

Done in convention at East Greenwich, this fifth day of November, eighteen hundred and forty-two.

ARTICLE II.

The governor, by and with the consent and advice of the Senate, shall hereafter exclusively exercise the pardoning power, except in cases of impeachment, to the same extent as such power is now exercised by the General Assembly.

CEMETERIES.

In various localities the public spirit of the inhabitants have set apart chosen spots for the interment of their dead, away from the din and bustle of busy life and the inroads of improvement. The grounds, beautiful and improved by the hands of affection, have justly received the application of "cities of the dead."

The following are the names and localities of some of the principal Cemeteries in Providence:

THE NORTH BURYING GROUND,

containing about 50 acres, is situated in the north part of the city, on North Main Street, bordering on the Mosshassuck River. This Cemetery is owned by the city, and under its management and supervision, the inhabitants have a right to free burial within it, and lots are granted by the city to families desiring to enclose them, upon the payment of a certain price. Most of the old citizens are buried within its limits.

THE SWAN POINT CEMETERY

is located at the extreme northern limit of the city, on the west bank of the Pawtucket River; and in its arrangement and laying out is similar to that of Greenwood, N. Y. Appended is a list of trustees and officers, with date of incorporation.

Incorporated May, 1847. Trustees, John J. Stimson, Henry Anthony, Richard J. Arnold, Gideon L. Spencer, Jas. Tillinghast, N. S. Draper, Wm. T. Grinnell. John J. Stimson, Treasurer. C. F. Johnson, Superintendent of the Grounds, Gate Lodge.

GRACE CHURCH CEMETERY,

situated in the south part of the city, belongs to the "Grace Church Society," and is under its patronage and supervision.

The Israelites have a Cemetery located at Cranston (just organized) containing something over an acre of ground, controlled and managed by the officers of the Providence Synagogue.

There are three or four private burial places in the western part of the city, which were originally purchased by subscription, but in consequence of the growth of the city in that vicinity but few interments are now made in them.

The appearance of our cemeteries is greatly indebted to the execution and finish of the monuments furnished by those skilful and enterprising marble dealers, the Messrs. Tingley Brothers, 109 South Main Street, Providence.

RHODE ISLAND STATE NORMAL SCHOOL.

During the Winter of 1852-3 a private Normal School was established in the city of Providence, mainly through the efforts of Professor S. S. Greene, then City Superintendent of Public Schools, aided, however, by the liberal contributions of several wealthy citizens. This school was under the direction of a Board of Instructors, consisting of Prof. S. S. Greene, Prof. Wm. Russell, Mr. Dana P. Colburn, and Mr. Arthur Sumner. It was attended by upwards of sixty students, most of whom were females, and was so successful that at its close an Examining Committee consisting of some of the most eminent friends of education in the State, earnestly recommended that it should be adopted as a State Institution.

No action was had, and the next winter, again through the efforts of Prof. Greene, means were obtained for the temporary support of another private Normal School, under the instruction of Messrs. Greene, Colburn, and Sumner. This was not less successful than the former had been, and so completely demonstrated the advantages of a Normal School, that on recommendation of the School Committee of Providence, the City Council appropriated the sum of \$3000 per year, for the support of a City Normal School.

Dana P. Colburn, Esq., was appointed Principal, and Arthur Sumner Assistant. Prof. S. S. Greene, as City Superintendent, was to have the general oversight of it, and arrangements were made to have it go into operation on the 29th of May, 1854.

Meanwhile the Legislature, at its May session, made a similar appropriation for a State Normal School, in consequence of which the project of a City Normal School was abandoned, and its teachers, Messrs. Colburn and Sumner, were appointed to the State School. An arrangement was afterwards made by which Prof. S. S. Greene was connected with the School as Teacher of English Grammar and Language. As at present organized the Board of Instruction consists of

Dana P. Colburn, *Principal*.

Miss H. W. Goodwin, Miss E. T. Brown, Miss A. F. Saunders, *Assistants*.

Prof. S. S. Greene, *Teacher of English Grammar*.

R. S. Fieldin, *Teacher of Vocal Music*.

Rev. Robert Allyn, Commissioner of Public Schools, is Supervisor of the School, and is, during the winter term of 1855-6, giving a course of lessons in Intellectual Philosophy.

The course of instruction is designed to be strictly professional, and to bear directly on the life and duties of a public school teacher. To this end, special attention is given to the Common School branches, which are considered with reference to their nature, scope, and design; to their value as laying a foundation for a thorough practical education, and as a means of mental discipline, intellectual improvement and culture; and to the best methods of teaching them to the various grades and classes of scholars so as to awaken thought, excite a love of study, and give a desire for further investigation in the various fields of knowledge. Lectures and exercises are given on the best methods of managing schools, on the proper motives to be appealed to in dealing with and controlling the young, and on other kindred subjects. Tuition is free to all who intend to teach in the State. The school is well attended, and has already sent out a large number of teachers who are successfully laboring in the schools of the State.

The entire number admitted to the school since its commencement as a State Institution, is 179. The number now in the school is 72.

The terms for 1856 will commence as follows:—The Spring and Summer term of 14 weeks, on April 7th; the Fall term of 11 weeks, on September 8th; the Winter term of 15 weeks, on December 1st.

Commissioner of Patents and Examiners,

And saving the heavy expense of mailing otherwise necessary to secure the same advantages.

CAUTION TO INVENTORS.

The sale of many Patents is spoiled, and many good Inventions are thrown away by not having the Specification properly prepared by a

COMPETENT, PRACTICAL AGENT,

So as to present the best claims. Thousands of dollars are lost to Inventors by this, and the publishing of notices of their inventions, so as to prevent their obtaining Patents in Europe.

## SAMUEL COOPER,

**LATE CHIEF EXAMINER IN THE U. S. PATENT OFFICE,**  
**PROCURES PATENTS IN THIS AND FOREIGN COUNTRIES.**

His long official connection with the Patent Office has rendered him familiar with its rules and practice, and with the history of invention in this and other countries; and this experience, with the frequent visits which he proposes making to the Patent Office, justifies him in saying that his Agency will offer to Inventors all the advantages of one located in Washington, and, in addition, those which result from a residence in the midst of mechanical and manufacturing industry.

Advice given upon all matters relating to the validity, &c., of patents, the novelty and patentability of inventions. Specifications and Drawings prepared,—Caveats filed,—Reconsiderations procured of applications that have been rejected upon imperfectly prepared papers,—Cases of interference, and applications for extension and re-issue prosecuted,—and in general, all business connected with the Patent Office, transacted with care and promptness.

British and other foreign patents procured, through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

### FROM THE HON. CHARLES MASON, COMMISSIONER OF PATENTS.

U. S. PATENT OFFICE, FEB. 28, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this Office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

### FROM THE EXAMINERS IN THE PATENT OFFICE.

"The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a principal Examiner in this Office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

## SPINAL INSTITUTION FOR THE TREATMENT OF Diseased and Deformed Spines, & Lameness in general.

No. 25 Rowe Street, opposite Essex Street Church, Boston.

DR. HEWETT is attending, as usual, to multitudes of patients; and he feels grateful to them and the public, for continued patronage. For twenty-five years, Dr. H. has been engaged in practice, and has attended to over 86,000 patients, with the following diseases, viz.: Inflamed, diseased and deformed spines; hip diseases; white swellings of all kinds; fractures; dislocations; rheumatism; tic douloureux or neuralgia; affections of the sciatic nerve; sprains; weakness of the stomach and bowels, in all their various forms; dyspepsia, paralytic affections, or loss of the use of the limbs; all diseases of the muscles, when contracted or not; and of the bones and joints. Dr. H. will warrant a cure in all cases of Bronchitis, and children born with clumped feet or deformed feet.

Dr. H. makes no charge for consultation. His charge for each visit is one dollar. People in low circumstances will be liberally considered. Hours of consultation from 8 A. M. to 3 P. M.

Dr. H. has recently published a Circular, containing 150 certificates from the most respectable, influential and wealthy people of the community. They all speak of Dr. H.'s kind, careful and attentive treatment. And he has published, also, heretofore, a pamphlet and other circulars, containing over 1,000 certificates of his remarkable cures, with the residences of the persons who have signed them. Any person wishing to have Dr. H.'s circulars and pamphlets, can have them by writing to him and paying postage.

Dr. H.'s dependence in performing his cures, is, having the patient under his immediate care. Those who wish for Dr. H.'s Medicines, and cannot place themselves under his care, can have his medicines by sending a minute description of their case, giving all particulars.

Dr. H. will guarantee to benefit patients more, in from four to six weeks, than any cold water institution in our country can do in from four to six months. And the patient will save seventy-five per cent. of the expense, and the same in time, by applying to Dr. H. And his applications never do injury. Patients can be accommodated in the house where Dr. H. has his rooms, with good rooms and board at \$3 per week.

DR. HEWETT will visit patients at their residence in this city and vicinity. All who address Dr. H. by mail, must pay postage. Dr. H.'s Rheumatic, Nerve, Spinal and Bone Liniments, can be obtained of him. Also a valuable strengthening Plaster, for lamenesses and weaknesses, and for corns. And he has also a sure cure for the piles, or hemorrhoids.

**S. C. HEWETT.**
